

Call for applications

**Hosting the 48th CIMUSET Annual Conference
in 2020**

Introduction and background

ICOM-CIMUSET (The International Committee for Museums and Collections of Science and Technology) is one of international committees belonging to the International Council of Museums (ICOM). Those Committees are global think tanks on museum, and more generally, heritage, matters. They define the museum professional's standards, share scientific information, establish partnerships with other organisations and develop recommendations for ICOM. CIMUSET Chairperson is a member of ICOM Advisory Council.

CIMUSET was founded in **1972** during a meeting in the National Technical Museum in Prague (Narodni Technicke Muzeum- 2 to 6 October 1972) with 21 foundation members. On 20 of June 1979, a meeting was held in ICOM to create various sections of CIMUSET: CIMUSET-Europe, CIMUSET-Asia and CIMUSET- Africa.

CIMUSET is composed of museums professionals from the fields of science and technology. CIMUSET **membership** is open to all ICOM members working in museums of science and technology and science canters, working primarily to popularize and promote science and technology among children and young people all over the world.

Our aims

Carry out a programme of activities related to the preservation of the cultural heritage within science and technology and dissemination of knowledge within this field.

Provide a forum for communication, co-operation and information exchange between museums, professional workers and others concerned with preservation of the cultural heritage within science and technology and dissemination of knowledge of this field.

Support the aims and objectives of the International Council of Museums (ICOM):

- With reference to the **preservation** of the cultural heritage of science and technology, and the **dissemination** of knowledge of its development and importance to society;
- Contribute to the development and implementation of **ICOM's** programmes;
- Provide **advice** to ICOM on preservation of the cultural heritage within science and technology and dissemination of knowledge in this field;
- **Represent** the interest of the museums and centers of science and technology within ICOM; and,
- **Co-operate** with National Committees and Regional Organizations of ICOM and with other International Committees and Affiliated Organizations in matters related to the Committee's specific mandate and to the broader interests of ICOM.

- 2016 Milan (*ICOM General Conference* - Italy)
- 2017 Rabat (Morocco)
- 2018 Ottawa (Canada)
- 2019 Kyotto (*ICOM General Conference* - Japan)

Conference Overview

The CIMUSET conferences are typically a **mix** of presentations, workshops, panels, poster session, tours and social events designed to maximize participation and interaction among science and technology museums professionals and colleagues from sciences centers.

Eligibility

All ICOM institutional members can apply to host the CIMUSET Conference. Priority will be given to countries that have never before hosted a CIMUSET Conference or meeting.

Conference Theme & program

Official language of CIMUSET conferences is **English**, simultaneous interpretation and other interpretation assistance can be proposed by the candidate.

The proposed **theme** should meet CIMUSET's requirements and accessible to members and participants and appropriate for the world museum community. Preference will be given to themes that are innovative, flexible and in keeping with ICOM's objectives and Strategic Plan as well as future plan(s) which will lie in the continuation of the current one. Consideration must be given to past themes of CIMUSET conferences and of International Museum Days themes in order to **avoid duplication**.

When suggesting the theme, the candidate must also include a list of three to six high-profile potential **speakers**, including at least one speaker from the host country, based on their geographic location, language diversity, male-female parity and professional backgrounds.

Format

The entire programme contains **two** (2) parts: Official sessions (Opening ceremony, Key notes, Presentations and sessions – Museum fair if possible) and Post-conference (for visits and excursions).

In addition to the above preliminary program, other parallels sessions may be proposed in others locations. The role of the organising committee is to gather all session proposals and submit them to CIMUSET Scientific Committee for approval via the **Email Box** of the Conference.

When suggesting **dates** for the conference, the bidder must make sure that they do not clash with major public holidays in the host country and around the world, or major meetings and events in the host city.

Expected attendance

CIMUSET conferences expect about +/- 80 delegates and accompanying persons.

DOCUMENTS OF THE BIDDING APPLICATION

Support

Letter of support/interest from the Direction of the Host Institution.
Other support from competent authorities is also expected to facilitate attendance.

Conference venue

The host institution must offer a favourable academic and professional **environment** for the hosting of CIMUSET Conference. The host institution is also expected to benefit from CIMUSET conference, through potential membership growth or a long-term legacy for CIMUSET as well as for the museum community in the country and in the region.

The host is responsible for providing adequate meeting rooms and other operational conference facilities. Other facilities include the registration area (a check-in desk, a registration desk, an information desk, a message board and a room for CIMUSET board meetings).

The host city: Transport and accommodation

- The host city is expected to be easily **accessible** by international airliners and a transport hub for inland visits before and after the conference. It would be preferable for the host to offer airfare discounts to participants for certain airliners or airline alliances. The organizers should indicate if an international airport is located near the city, by marking its location and the distance to the city centre and the conference venue.

Once in town, local transport facilities, airport transfer, easy access to the city centre from hotels, shuttle service from the hotels to the conference venue, etc. are an important consideration for participants.

- **Accommodations facilities:** A broad range of lodging options is necessary, as most conference participants stay at facilities recommended and negotiated by the host. Hotels of medium price range and within walking distance from the conference venue are preferable, as well as rooms in universities and hostels, if not too far from the conference site.

- **Other information should be given:**

- Visa types, validity and fees;
- List of museums in the host city;
- Proposal for cultural and tourist activities (including the post-conference tour, excursion day, programme for accompanying persons and evening cultural programmes) and the programme for opening and closing receptions;
- A public transport/tourism map with details of transport means around the conference venue and the hotels;
- Weather, electricity voltage, money exchange...

Budget

ICOM-CIMUSET can offer until 3500 Euros to the institution hosting the conference for preliminary costs (Mail & expedition, first meetings, conference web site...) but candidates are encouraged to look for financial support from local partners who chair similar goals and objectives.

If it's possible, you can state the possibility of any grants or bursaries from relevant authorities to some participants from developing countries.

CIMUSET Conference registration fees:

The conference registration fees will be invoiced by the conference organizer.

Early registration:

Participant: 300 € (Meals, coffee, documentation, bag, excursion, etc.)

Accompanying person: 250 €

Rate two months before the conference:

Participant 350 €/ Accompanying person 300 €

Registration Cancellation Policies:

Cancellations received 30 days before the conference will receive an 80% refund of fees paid. Cancellations received after that will receive no refund. Cancellations must be submitted in order to receive any possible reimbursement.

Contract signing

A contract defining clearly the roles of CIMUSET and the Host Institution will be signed by the two parties before the event.

CIMUSET 2020 CONFERENCE: DEADLINE FOR BIDS

The bidding application for 48th Conference in 2020, must be sent to CIMUSET board by **Saturday 15 September 2018** (GMT time – emails below).

Any potential applicants with questions about hosting the conference, or about the application process should contact CIMUSET Chair: e.dahmali@gmail.com and CIMUSET Secretary: johanna.vahapesola@tekniikanmuseo.fi
